

What brings Erasmus of Paris Alive?

Hi,
I'm Cédric and I've been an Erasmus student in 2011 in Portugal.
My study abroad experience has been for me the best memories of my entire students' life.
Studying abroad literally changed my way to see the world.

My study abroad period has been made of several learning and discovers experiences:

Through parties

Through trips

Through sightsee

Through classes by
discovering a different
way of teaching more
practical and
interactive

Through talking, cooking
and socializing with
other students from
several countries

I had this impression that I learned more about me and others in 5 months than in my entire life!

My Erasmus experience has been so good and so powerful to me that I realized that I should do something to help all the students, trainees and young workers to provide them a life experience as wonderful as the one I had during my time of staying abroad!

That's why I put on "*Erasmus of Paris*" all the information and entertainment activities which made the spirit of study abroad!

*"Erasmus of Paris,
Erasmus pour la vie !"*

Discover Paris

Monuments

Museums

Popular Districts

Parks

Riversides

Transportation

.... And make every foreigner experience the most joyful time of their life!
